

-Technical Data Sheet-

EC FERTILISER

Calciocur

**CALCIUM NITRATE SOLUTION N (CaO-MgO) 9 (10-5)
WITH MOLYBDENUM (Mo)**

ANALYSIS	w/w	g/L
Total nitrogen (N)	9%	133.2
Nitric nitrogen (N)	9%	133.2
Calcium oxide (CaO) water soluble.....	10%	148
Magnesium oxide (MgO) water soluble	5%	74
Molybdenum (Mo) water soluble	0.07%	1.04

CHARACTERISTICS

Liquid fertiliser with high content of Calcium and Magnesium, enriched with Molybdenum. CALCIOCUR gives greater consistency and storability to tissues, improving resistance to rots and organoleptic characteristics.

METHODS OF APPLICATION AND DOSAGES

Foliar application:

- **Fruit trees:** from pre-flowering to fruit enlargement, 3-4 applications 2-3 L/ha
- **Viticulture:** at pre-flowering, one application 2-3 L/ha
From fruit set to berry enlargement, 3-4 applications 2-3 L/ha
- **Vegetable open field and industrial crops:** from pre-flowering to fruit enlargement, 3-4 applications 3-5 L/ha
- **Leafy vegetables:** during the whole crop cycle, 2-4 applications 2-4 L/ha
- **Vegetable greenhouse crops:** from pre-flowering to fruit enlargement, 3-5 applications 300-500 mL/hL
- **Flower crops:** during the whole crop cycle, 3-5 applications 200-300 mL/hL

Dosages are calculated for normal application volumes.

Fertigation:

in the same growth stages and at the same interval of application

- **Fruit trees, viticulture, vegetable open field and industrial crops, leafy vegetables:** 10 L/ha
- **Vegetable and flower crops in greenhouse:** 1 L/1000 m²

Please consult the Technical Service for application advice in specific crop and pedoclimatic conditions. The product can be mixed with all common formulations, except with products based on Sulphur, mineral oils and emulsions. A simple mixture test to check compatibility is advisable. The company is only liable for the composition of the product and assumes no responsibility whatsoever for damages caused by wrong/improper use of this product.

WARNING

Keep away from flames in a cool, well-ventilated place. Avoid prolonged exposure to low temperatures. Check container periodically. In case of accidental spill contain the leak, avoid water
