

Saviavital K

Presentation:
5l, 20l, 200l and 1000l
containers

FiBL

Registry number:
F0004666/2030

i Category

Organic NK fertilizer of vegetable origin. Applicable Regulatory Law: Royal Decree 999/2017 that modifies RD 506/2013 on fertilizer products.

Organic Production Regulation (EU) 2018/848.
Input certified by CAE.
Input certified by Demeter.

☰ Main benefits

- Provides organic matter and N and K with a very low level of salts
- Enhances soil microbial activity
- Powerful root stimulant and stress reducer thanks to the Glycine Betaine content

📄 How to use

It is recommended to apply by irrigation at a dose of 20-50 l/ha, depending on the conditions of the crop.

For spray applications the recommended dose is 5 cc/l.

Description

Liquid organic fertilizer rich in organic matter, humic extracts, nutrients and Glycine Betaine

☰ Composition

Appearance: Dense, aqueous brown concentrate
pH in water (1:5): 5.5
Relative density (H₂O=1): 1.25 kg/l
Organic matter: 40%
Nitrogen (N): 2.5%
Organic Nitrogen: 2.5%
Phosphorus (P₂O₅): 0.085%
Potassium (K₂O): 7%
Calcium (CaO): 1%
Magnesium (MgO): 0.05%
Sulfur (SO₃): 1.2%
Boron (B): 8.2 mg/kg (10.2 mg/litre)
Iron (Fe): 161 mg/kg (200 mg/liter)
Manganese (Mn): 14 mg/kg (17.5mg/liter)
Total humic extract: 23%
Humic acids: 1%
Fulvic acids: 22%
Amino acids in the form of Glycine-Betaine: 7.5%
C/N Ratio: 9

⌚ Stability

Saviavital K is a stable product for a minimum period of 36 months if stored in a cool, dry place, away from direct sunlight.

i Other information

The product is used as fertilizer for plants. The information reflected in this document refers to the unaltered product, and in accordance with the manufacturer's specifications; being a guide for use and storage.

The data expressed is based on knowledge of the product up to the date of preparation of the document.
